

Q'acheq Haech's Warship

Specifications

Dimensions:

Overall Length: 205 meters

Overall Width: 282 meters

Overall Height: 64 meters

Displacement:

Base Construction: <Classified>

With Fuel and Energy Generators: <Classified>

Crew:

Biologics: 20

Holograms: 10

Androids: 5

Velocity:

Cruising: Transwarp Level 2

Maximum: Transwarp Level 3

Acceleration:

Rest – Full Impulse: 8.685 seconds

Impulse – Warp Engage: 0.295 seconds

Impulse – Transwarp L2 Engage: 2.569 seconds

Impulse – Transwarp L3 Engage: 3.557 seconds

Propulsion:

Impulse: (12) Phased Quantum Impulse Drive Units

Warp: (4) Multi-Linear Warp Drive Units

Transwarp L2: (9) Transwarp Level 2 Coil Assemblies

Transwarp L3: (3) Transwarp Level 3 Coil Assemblies

Power Generation:

Primary: (6) Omega Molecule Energy Extraction Modules

Secondary: (1) Artificial Quantum Singularity Waste Recycling Module

Weapons:

Offensive: (8) Multi-Adaptive Phaser Arrays
(114) Pulse Energy Cannons
(26) Small Projectile Launchers*
(18) Large Projectile Launchers*
(2) Multi-Vector Multi-Energy Pulse Emitters **[Aft only]**

Defensive: Regenerative Multi-Adaptive Multi-Layer Subspace Enhanced Shield Grid
Regenerative Multi-Layer Ablative Hull Armor
Multi-Phase Cloak
Hull Embedded Subspace Scan Scrambler / Reflector Assemblies
(50+) Automated Class-1 Defense Drones
(10+) Automated Class-2 Defense Drones

Computer Systems:

Primary: Non-Personafied Quantum Neural Networks

Secondary: Multi-Linear Quantum Processors

Other:

Primary Navigation System: Relative Matrix Navigation System

Navigational Deflector System: (4) Dynamic Navigational Deflector Units

Embarked Craft:

Q'acheq's Shuttle
Automated Defense Drones
Automated Regeneration Drones

Misc: (4) Multi-Phase Tractor Beam Emitters [**Aft only**]
