

"Animation Problems"

FADE IN:

EXT. OUTSIDE - AFTERNOON

JEFF is moving around "PEGOS" on a table. His friend, MIKE approaches him.

MIKE

What are you up to, Jeff?

JEFF continues working, without looking at MIKE.

JEFF

I'm making a movie with those PEGOs
my mom got me.

MIKE leans over and examines the pieces.

MIKE

It must be hard.

JEFF shakes his head.

JEFF

It gets easier, once you get the
hang of it.

JEFF moves a piece, and then stands up straight.

JEFF (CONT'D)

Mike, you came just in time. I just
have to take one more frame, and
I'll be finished.

JEFF puts his hand on a camera, and is about to take a frame when, suddenly, a brick jumps off the desk and starts moving down the street. JEFF has his back turned and he doesn't notice it.

MIKE

Jeff, you might want to go get that.

JEFF turns around and sees the brick running away, and starts chasing after it.

JEFF

COME BACK HERE!

CUT TO:

EXT. STREET - AFTERNOON

The brick is still going down the street and JEFF is still chasing after it. He dives for it and grabs it. It continues, with him holding onto it. He raises his hand and starts beating the brick with it.

JEFF
You're coming with me!

Finally, JEFF gains control and sits up with the brick in his hand. He smashes it on the ground between his legs. The brick lays there, still. He picks it up.

JEFF (CONT'D)
MIKE, CATCH!

JEFF throws the brick.

CUT TO:

EXT. OUTSIDE - AFTERNOON

MIKE reaches up and grabs the brick from the air. He sets it in place and quickly takes a frame with the camera. He puts his hands in the air.

MIKE
JEFF, I DID IT!

JEFF walks up to MIKE and pats him on the back.

JEFF
Good job, Mike. Now just help me carry my stuff inside so I can edit the movie together on my computer.

MIKE picks up the camera. He is about to walk away when suddenly, he drops the camera. It breaks as it hits the ground.

MIKE
Oops.

JEFF drops to his knees and puts his hands over his face.

JEFF
NO!

FADE OUT:
