Creator: LEGO Company

- VP_QA_Part01.mpg (35MB Audio file once merged - 14 parts to merge + 1 .exe)
Location: Brickswest Conference
Comments: This is part 1 of 2 of the Q&A Session, which Brad Justus was at.
Creator: A&M Productions (Audio Footage)
- VP_QA_Part02.mpg (35MB Audio file once merged - 19 parts to merge + 1 .exe)
Location: Brickswest Conference
Comments: This is part 2 of 2 of the Q&A Session, which Brad Justus was at.
Creator: A&M Productions (Audio Footage)

The audio files of the Q&A are the same as the .pdf transcript found in the presentations of Brickswest 2002 in the brickshelf folder

NOTE FOR ALL VIDEO FILES

All .avi files use the Divx4.12 Codec. You can obtain the Codec from <http://www.divx.com>. Also if the file is split you must download all the 'parts' and the .exe. Use the .exe file to merge the parts together.

If the comments say NO SOUND then that clip has NO SOUND otherwise clip has sound.

For files that must be merge YOU MUST RENAME the .exeold to .exe to merge the files.
