23rd ANNUAL GENERAL MEETING

Thursday February 8, 2024

Guest Speaker: Dr. Aym Abdulla MD FRCPC
Hematologist Royal Columbian Hospital

**Topic: RESTORE: Iron Deficiency Anemia Management
Through Clinical Pearls**

Learning Objectives:

- Recall the diagnostic assessment of and investigational tests used for iron deficiency anemia (IDA).
- Distinguish iron status with the various underlying causes of IDA.
- Implement the management algorithm of IDA to achieve optimal patient outcomes.
- Review oral iron therapy as first-line treatment option
- Identify the main clinical indications for currently available IV iron therapies and recognize their difference through evidenced-based research.
- Apply practical approaches according to different underlying causes of iron deficiency anemia and other patient factors.
