*Cordially invites practicing physicians to this live program*  
**Type 2 Inflammation & Managing Atopic Dermatitis**

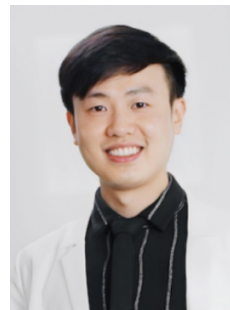

**Learning Objectives**

1. Review the mechanism of Type 2 inflammation and the associated comorbidities.
2. Understand the etiology and burden of atopic dermatitis (AD)
3. Discuss the atopic march and the importance of treating early.
4. Review key clinical features and diagnostic criteria for atopic dermatitis.
5. Assess current treatment options for AD including topical therapies and advanced systemics.
6. Discuss optimal management for AD patients eligible for advanced therapies.
7. Apply knowledge through interactive discussion of AD cases.
