

Cordially invites practicing physicians only to this virtual program

Navigating Dizziness: A Collaborative Approach to Vestibular Health

Join us for an insightful discussion on diagnosing and treating vestibular disorders — featuring collaboration between an experienced Competency Certified Vestibular Therapist and a leading ENT specialist in otology/neurotology

Learning Objectives

1. Medical approach to the dizzy patient (history, physical exam, acute management)
2. Differential diagnoses in dizziness and balance problems
3. Understanding the anatomy, physiology, and testing opportunities in primary care
4. When and where to refer those “dizzy” patients that escape your practical ability to diagnose
5. The role of Vestibular Rehabilitation Therapy (VRT) in managing the “dizzy” patient

Speakers

**Dr. Bella Wu; MSc, MD, FRCSC
Otolaryngologist**

**Abeed Hirji, BScOT
Vestibular Therapist**

Facilitator *Dr. Michael M. Myckatyn*

Date and Time - Thursday, October 16, 2025
