**Results:** There was very little information found for Opal E. Wright. She had no intel found in either City or County LERMS, Gates Impact or our system connecting to the other CAC centers. She has no found file 15 or local bookings. She has no found registered vehicles and has not been documented in any additional vehicles. I did not find any wants/warrants for Opal; she is not listed in the gang database or on any supervision and has no found MHT/OD history.
