

Perform an Interrogation to receive information about Emile Harris quitting the library

- Emile called out sick for days following his incident report
- He quit after a week of sick days, with no letter of resignation
- He seemed very tired and scared, but insisted no one come visit him and that his final check be mailed, not picked up
- The only continued trouble has been with the MC Escher book. The ink appears to be bleeding into more and more of the paintings, along with corrupting the text.
- The library doors have been going off the fritz lately- they've had to turn off the automated function. They click and screech and try to open themselves when they are locked.

Elicit Private Evidence to receive the records of who returned the books mentioned in Harris's statement
