Classic arcade jumping and climbing action!

It is TWO games in one! The classic arcade game PLUS a second game with four all NEW levels based on the arcade hit

TRIPLE ELEVATORS - Conquer your fear of heights and outsmart merciless fireballs guarding narrow and unforgiving columns. Don't forget the infamous springs!

THE MIXER - A relentless cement mixer tops off empty pie plates while full ones twirl down from the sky! Can you master the timing it takes to clear each conveyor?

THE REFINERY - Oil, gas, and an array of safety valves... this level has "DANGER" written all over it. Outsmart Kong by putting out the fires guarding the top towers!

TWISTED GIRDS - A new barrels board loaded with surprises! Stay constantly alert because barrels travel both ways and flames rain down from above!
