How to Use This Book

Top Reading is a six-book series designed to provide guided reading practice for beginning to intermediate level readers. The series uses carefully chosen fiction and non-fiction texts that will catch students' attention. The objective of the series is to encourage students to read for both pleasure and study purposes while developing their vocabulary, syntax, reading fluency, and reading comprehension. Students who complete the *Top Reading* series will greatly improve their reading skills.

Read and Check

The first page of every unit uses interesting photographs and thought-provoking questions to introduce the unit topic. It also helps students relate the unit topic to their own background knowledge and life experiences. This motivates students and makes it easier for them to understand the reading passage.

New Words

The activities on this page introduce six new vocabulary words that appear in the reading passage. The use of a picture-dictionary style allows students to connect each written English word with a meaning—without needing to use their native languages. The audio also allows students to hear each new word spoken by a native speaker. Pre-teaching the vocabulary is an important step in facilitating reading comprehension of the main text.

Reading

Spread over two pages, the reading passage features highlighted vocabulary words and strategically regulated sentence structures. It is accompanied by a colorful collage of images illustrating the content of the passage. The highly decodable text keeps random guessing to a minimum.
