Red Peace No. 1, Declares Wallace

NEWARK —AP— "No. 1 business today" is understanding and peace with Russia, defeated Progressive Party Presidential Candidate Henry A. Wallace said last night.

Wallace addressed members of the State Division of the American Birobidjan Committee.

"I was urged by friends not to speak to you tonight," Wallace said. "They said anything having to do with Russia was too hot."

"But," he went on, "I am glad I have come because I believe that the Jewish people, both in Israel and Birobidjan, are going to contribute enormously to an understanding between the Anglo-Saxon and the Slavic worlds in important future areas of world conflict."

Birobidjan is an autonomous Jewish State in the Far Eastern section of the Soviet Union.

Alumni Give Half Million To Princeton

PRINCETON — Princeton University alumni have contributed \$538,000 in expendable funds to meet the university's budget deficit for 1948-49...

The association is conducting a campaign to raise \$550,000 by the end of June to meet the faculty salary increases granted for this year by the university.

The \$538,000 is one of the largest sums ever obtained through Princeton's annual giving program.

In accepting the gift, Dr. Harold W. Dodds, president of Princeton, described the financial difficulties of private educational institutions and emphasized the danger of governmental control.

"While most Americans realize the place that private enterprise fills in business and industry, the need to preserve private enterprise in education is not nearly so well understood," he said.

"Yet it is clear that if private enterprise fades out of our educational pattern of education, private enterprise in other areas will fade with it," he added.

The highest award which Princeton can confer upon an undergraduate, the M. Taylor Pyne Honor Prize, was presented separately to David W. Romig and Daniel R. Toll, both of New York City. Each has served as chairman of the Princeton Undergraduate Council.

Seven Princeton alumni, including S. Whitney Landon of West Orange, N. J., and Lewis Baker Cuyler of Princeton, were nominated at the 35th annual meeting for two vacancies among alumni representatives on the University Board of Trustees.

Klockner PTA Asks Safety For Children

Members of the Klockner PTA have asked the Mercer Freeholders to take steps to guard the lives of the youngsters who must walk to Klockner School daily.

The group yesterday urged the county to build paths on either side of Klockner Road so the children will not have to walk on the two-lane highway.

In a letter to the Freeholders, the PTA cited the danger to the children going to and returning from school. It pointed out that the Klockner Road is a busy thoroughfare in the mornings and afternoons when the children are forced to walk along its narrow shoulders.

The Freeholders agreed to act to correct conditions. They pointed out that a path was built during WPA days, but has since deteriorated. They blamed Klockner Road residents who have allowed their hedges and shrubbery to grow over the path or who have otherwise encroached on the walkway. The Freeholders asked the PTA to establish the line of the path. Once this is completed, they indicated the path would be put into good condition.

Driscoll Victory Held GOP's Hope

POINT PLEASANT, N. J. — AP — The reelection of Governor Driscoll in November will mean a national resurgence of hope for Republicans throughout the country, a Republican leader said last night.

Albert H. Hermann, administrative assistant to United States Senator H. Alexander Smith of New Jersey, described the coming election as of "vital national importance."

In a speech at a dinner of the Point Pleasant Republican Club, Hermann said some national Democratic leaders are already preparing for the political significance of the gubernatorial fight in this State. Every big gun in the New Jersey arsenal will be leveled at New Jersey in November.

Hermann described New Jersey, after the last general election, as "the No. 1 Republican State in the Union." New Jersey went generally Republican in the face of a national Democratic trend.

Speed Sought On Labor Bill

WASHINGTON —AP— Democrats in Congress, urged on by impatient unions, sought today to speed passage of a new labor law.

The Senate Labor Committee neared the windup of its stormy hearings with no visible changes in the views of its 13 members. Their opinions have been voiced day after day, sometimes at greater length than the witnesses.

Following the hearings, which are due to end tomorrow, the committee's 8-5 Democratic majority is expected to approve—with perhaps minor changes—a bill embodying President Truman's labor proposals.

Those proposals would replace the Taft-Hartley Act with the original Wagner Act—plus certain changes such as emergency boards which could recommend settlements in disputes threatening the national health or safety.

Chairman Elbert Thomas, sponsor of the Administration bill, appealed to the committee's Republicans late yesterday to exercise "good will" and help speed the measure to the floor even if they oppose it later in the Senate debate.

"Let's discuss it where there's more room, over in the Senate," he said.

Jersey Facts Bulletin Issued

Perhaps the most frequent query by visitors to New Jersey's many historic shrines is "Did Washington sleep here?" In many cases he did, since the Revolutionary commander and first President spent considerable time in the State.

In answer to this and other questions the State Council has issued an information folder entitled "One Hundred Facts about New Jersey." Already more than 31,000 requests have been received for copies.

It describes New Jersey as ninth in population although 45th in size, sixth in industry, first in farm income per acre and tenth in recreation travel industry. Statistics on Government, schools, geography, transportation, agriculture, business and a variety of miscellaneous topics are among the other interesting facts.

100,000 Reds Held by U. S., Soviet Claims

BERLIN — AP — Lieutenant General G. S. Lukanschenko, Soviet chief of staff in Germany, charged today that the U. S. is holding more than 100,000 Soviet citizens in Western Germany.

General Lucius D. Clay, American commander, has said all Russians who wanted to return home already have done so and that is why he requested the Soviet repatriation mission to wind up its affairs and leave.

The Soviet press loosed a blast against yesterday's riot in the British sector over the "Oliver Twist" film. Polish Jews forced a German theater to cancel the picture after a series of fist fights with the police and rock-throwing at the theater. They complain the film is anti-Semitic.

The Russian army newspaper, Taegliche Rundschau, called the incident a "pogrom." Twenty-five of the demonstrators and 14 policemen were injured slightly.

Other Russian-backed newspapers called the turmoil a "Fascist provocation" and accused the
