

\$56,000 Gift Brings Worry

Pool Winner's Son Enjoys Problem

HORDEN, England (AP)—American milkman Henry Riley today picked up a gift check of 20,000 pounds — \$56,000 — and promptly fell prey to the worries of wealth. "I don't know if I'll be able to take it out of the country and back home to the States," said the 37-year-old visitor from Canton, Ohio.

"But it's the sort of problem I like worrying about. Who wouldn't?"

"One thing's for sure," he added. "I'm not coming back to live in this smoky grimy old village."

Riley's parents Mr. and Mrs. Tom Riley gave each of their two sons and two daughters 20,000 pounds from the 209,079 pounds (\$585,421) they won recently on a 2-cent football pool bet. The son from America came over for a month's celebration of the fortune, bringing his wife and two sons, 11 and 7.

Major Fined In Boxing Of Korean Thief

SEOUL, Korea (AP)—An American major who piloted a helicopter carrying a young Korean thief nailed in a box has been reprimanded and fined \$200, half a month's pay.

Maj. Thomas G. James of Plymouth, Pa., got the maximum penalty under Article 15 of the Military Code which he chose to accept rather than risk trial by a general court-martial. If convicted by the court, he could have gotten up to three years and nine months in prison, loss of all pay and allowances while imprisoned and dismissal from the Army.

James already has been relieved of his post as commander of the aircraft maintenance center where 14-year-old Kim Choon II was rouged up Feb. 25.

The Army announced today that a court-martial had been scheduled April 18 for M.Sgt. Robert E. Weidensaul, Pottstown, Pa., also accused of mistreating the boy. A general court last week found Capt. Marvin E. Kemp, Kilmichael, Miss., guilty of assaulting Kim. It fined him \$1,200 and relieved him of command for six months.

The Army said the trio caught Kim stealing, knocked him about and nailed him in a three-foot box. James then flew him to another base 25 miles away, where some soldiers heard him whimpering and released him. He is now in a U.S.-supported orphanage.

Veto Of Harbor's Bill Seen Slap At Democrats

WASHINGTON (UP)—Democratic congressional leaders pondered today whether to attempt to overturn President Eisenhower's veto of a billion dollar river and harbor projects bill.

The President's veto was regarded as a slap at the Democratic leadership. Congress also will be waiting today to learn whether the President vetoes or signs a bill to step up highway construction. He has until midnight to take action, or the measure which authorizes a \$5,500,000,000 highway construction program will become law.

The Chief Executive's veto yesterday on the \$1,704,028,000 river and harbor bill came after the legislation whizzed through Congress. It was a major plank in the Democrats' anti-recession program.

Both the House and Senate convene at noon today after a morning of committee work. The Senate will continue debate on the community facilities bill, while the House takes up an anti-secrecy bill.

The community facilities measure would establish a billion dollar federal fund to make loans to local communities for civil works projects. Democratic leaders originally planned to take up the bill before Easter, but Republicans forced the Senate to forego action until after the 10-day recess. The anti-secrecy bill under

Building Destroyed In Rotary Island Fire

These are the charred remains of the vacant wooden buildings on Rotary Island, destroyed by fire yesterday afternoon. Firefighters were unable to reach the Delaware River island, located opposite Glen Afton. The buildings have been unused for several years due to flood dangers. Formerly called Park Island, the land has been utilized by the Rotary Club, the Rescue Mission, Camp Delaware, and the Trenton Christian Camp Association for young people. Trenton police said today that three 10-year-old boys admitted setting fire to the buildings. They were released in custody of their parents.

Distance Record Beckons Model

VAN NUYS, Calif. (AP)—"Big Breathless," holder of the world endurance record for model airplanes, is going after a distance mark.

Ken Willard, builder of the plane, disclosed his plans today. The radio-controlled plane, with a 6-foot wingspread, yesterday flew 5 hours, 29 minutes. The old endurance record of 3 hours, 6 minutes was held by the Soviet Union.

The distance record, set in Belgium recently, is 12 miles. Willard, director of industrial research at University of Southern California, said he would make the distance attempt later this year when judges from Federation Aeronautique Internationale are available.

Big Mistake

PEMBINA, N. D. — UP — The first European settlement in North Dakota was the result of a geographical mistake. Pembina, in the northeastern part of the state, was settled by Scottish highlanders from Winnipeg who thought they were still in Canada.

Commission Named To Guide County's Growing Park Setup

Mercer County now has a recreation commission to direct its growing program and to chart a course in park and playground development for the future.

The five-man commission was announced yesterday by Freeholder Director Joseph S. Holland. Members will serve without pay and will advise and recommend rather than raise and spend recreation funds.

Those named on the new commission include David H. McAlpin, Pretty Brook Road, Princeton, one year; Mrs. Leslie A. Hayland, 108 Spring Street, Trenton, two years; Wilbur V. Jackson, 53 Fogarty Drive, Mercerville, three years; Peter J. Morgan Jr., 21 North Lenape Avenue, Trenton, four years; Freeholder Richard J. Coffee, 17 Hendrickson Road, Lawrenceville, five years.

After the original terms expire, the members will be reappointed or successors named for five-year terms.

Appointment of a recreation commission was recommended in the survey conducted by the National Recreation Association in 1954. Actually the recreation department of the county was created in 1951, but its activities were limited mostly to sponsorship of the Trenton Community Chorus, which had been organized through the efforts of the Junior Chamber of Commerce.

The survey cited the need for a total of 1,138 acres of additional playgrounds and recreation areas. In addition the county was asked to acquire 4,268 acres of reservation lands.

Since the report was released, Mercer County acquired "Cedar Bliss," a six acre tract donated by Dr. Emil Frankel, and 81 acres in Princeton Township from Dr. Oswald Veblen for development into an arboretum.

Further, the county is preparing to open its 18-hole public golf course. On the drawing board are plans to transform some 200 acres of land adjoining the golf course and airport into playfields, parks, picnic groves and athletic fields.

It will be the job of the new commission to outline a program for the operation of the facilities already owned by the county and to expand and equify facilities to take care of the county's future needs.

McAlpin, a life-long Princeton resident, is keenly interested in recreation and has already helped the county to acquire valuable park land.

Morgan is track coach at Princeton University and has been interested in athletics and recreation since his graduation from Notre Dame University and New York University.

Mrs. Hayling is the wife of Dr. Hayling and has some experience in community programs.

Jackson is an active union leader and experienced in needs

of industrial workers. Coffee, of course, has been carrying the burden of the county's recreation program for the last several years. The lands dedicated to the county were obtained largely through his efforts. He instituted the national survey and took over construction of the public golf course.

Veil Just 'Dream' To Julie Haydon

NEW YORK (AP)—Julie Haydon clarified today her aspirations, about becoming a Roman Catholic nun.

"It is a dream in my heart, not a plan," she said.

"There is a world of difference between the two words."

The actress-widow of renowned critic George Jean Nathan made the comment after a report was published that she had decided to take the veil.

Miss Haydon became a Catholic last Nov. 27 a few weeks after Nathan had been baptized into the faith.

To Retire May 1

Charles A. Hurley Sr.

Fiscal Officer Resigns Post

TRENTON — State Highway Commissioner Dwight R. G. Palmer announced today that the Department's top fiscal officer, Charles A. Hurley Sr., will retire May 1 after 40 years of service with the state agency.

Hurley has been comptroller of the department since April, 1956, when two of the main divisions of the agency, auditing and accounting and administrative services, were merged under a single division head.

For eight years prior to 1953 Hurley headed the department's auditing and accounting division, having succeeded the late Marvin L. Howell in the post during 1948.

He will be honored by his fellow employees and friends tomorrow night at the Terrace Room of the Stacy-Trent where a dinner-dance will be held.

Hurley is 70, a native of Trenton, and is married. He and his wife live at 70 Sanhican Drive. They have one son, Charles A. Hurley Jr., who is employed in the maintenance bureau of the highway department.

Hurley Sr. was educated in the public and parochial schools of Trenton, Rensselaer Polytechnic Institute, Fordham University, and Rider College.

Active in civic affairs as well as fraternal and professional organizations, Hurley is a member of the American Association of state highway officials, a former director of the National Association of Cost Accountants, former president of Mercer Council, New Jersey Civil Service Association, and a former vice president of the state organization, treasurer of the Trenton Historical Society, Trenton Council Knights of Columbus, and Bishop Griffin Assembly, 4th Degree, Knights of Columbus.

Cyrus Card, career department employee who succeeded Hurley in 1956 as the department's chief auditor and accountant, has been requested by Commissioner Palmer to serve as acting comptroller.
