

July 7, 1930.

Mr. J. L. Bauer, State Highway Engineer,
State House Annex.

RE: Washington Crossing Memorial Bridge.

Dear Mr. Bauer:

A few days ago I wrote Highway Commissioner Firman M. Reeves about the prospective Washington Crossing Memorial Bridge, stating that I understood action had been taken in Congress towards the building of such a memorial, also stating that Mr. Wilber, the State Forester wished to take a trip to Washington Crossing Park with the Commissioner and you, feeling that you and the Commissioner would be interested to know of the proposed new developments in Washington Crossing Park. Today I am in receipt of a letter from Commissioner Reeves stating that I should make an appointment with you for some future date to talk over location for the proposed bridge and park development.

Mr. Wilber and I are usually in on Tuesdays and if you and Commissioner Reeves could spare an hour to slip up to the park we will leave the setting of a date and time to you and Commissioner Reeves.

DEPARTMENT OF CONSERVATION AND DEVELOPMENT.

J. Gilbert Borton,
Land Agent.
