Miss Jersey Eyes Scales

Diet First On Agenda For West Orange Beauty Winner

ATLANTIC CITY, N. J. W-The newly crowned Miss New Jersey had a weighty problem today.

Sally Joan Waller of West Orange, named fairest flower in the Garden State Saturday night, wants to lose a few pounds here

The pretty, blue-eyed brunette, whose 5-9 % frame supports a 36½-25-36½ form, said a diet is first on her agends first on her agenda.

She weighs 136 pounds now, she said, but would like to be a shade more streamlined by the time Sept. 6 and the Miss America beauty pageant roll around.

Miss Waller, the tallest of the 15 aspirants for the state crown, was surprised when her name was announced as the winner.

"I had no idea I would win, said she. "I was breathless. . flabbergasted." A rendition of "Singing in the

Rain" while clad in a transparent raincoat over a dancing costume, and a soft shoe routine, helped put her over.

She plans to use the first prize of a \$500 scholarship to continue her music studies at Oberlin, Ohio, College, where she is a sophomore. The new Miss New Jersey said

she would eventually like to gct into musical comedy, "but get-ting my college degree is most important." There's no one man in her life

at the moment. The 19-year-old beauty is neither engaged nor go-Second and third in the competi-

tion were Catherine Patricia Grand-Jean of Nixon and Shirley Jane Price of Millville, respective-

Dorothy Marie Dudek, Miss Pat terson, was voted most talented.

Assails Lance **Death Penalty** In Sex Cases

NEWARK - AP - State Senator Wesley L. Lance (R-Hunterdon) says he thinks "permissive death sentences" for sex molesters of children under 16 would lead to acquittals instead of convictions. Lance last night made known his opinion of a proposal by State Senator James Murray (D-Hudson) that juries be permitted to mete out the death penalty in cases involving sex offenses

against children. The Hunterdon County Republican said such "permissive death sentences" might make juries reluctant to convict an of fender if the panel felt a conviction could send the defendant to the electric chair.

'Thus you would be defeating your objective," Lanece told Murray on the weekly television program, "Legislative Report."

"And instead of conviction and reasonable punishment," Lance added, "you would be getting acquittals with all the serious implications this state of things would have for the community.'

Murray said he plans to em-body his proposal in a bill for introduction in the Senate this Fall. He also plans to introduce a resolution today calling for the establishment of a nine-member commission to study and strengthon the state's sex laws.

Lance said he would vote for the resolution, which requires the commission to report back to the legislature and the Governor within six months with possible new laws and recommendations. Lawrence Whipple, director of

public safety in Jersey City, Murray's home town, said he might "go along with the permissive death sentence" but he would be opposed to any mandatory death Another guest on the program,

Dr. Ralph Brancale, director of the Menlo Park Dianostic Center where sex offenders are sent for observation and treatment. said 50 percent of the sex offenders are repeaters but that they could Joins Staff Of be rehabiliated through proper clinical treatment.

Victor Plant Undergoes Annual Checkup

The Victor Chemical Corporation's good housekeeping committee is making its annual inspection of the Morrisville Works. Safety and security measures are being emphasized this year in the annual tour of the inspecting com-mittee among Victor's f i v e plants. Ratings on cleanliness of plants, orderliness, sanitation, fire prevention, main-tenance and security are given in the competition for

top recognition.
The photo photo above shows committee members discussing the various details of the Morrisville plant. Left to right,

they are: F. B. McCoy, committee chairman and general superintendent of furnace plants; H. J. Hopsicker, committee secretary and member of the personnel department; R. W. Hockman of the South Gate, Calif. plant; D. L. Johnson of the New York sales office, and B. H. Cox of the engineering department in Nashville.

In addition to installations noted, other plants to be visited are in Tarpon Springs, Mount Pleasant, Tenn., and Chicago Heights, Ill. The Nashville plant was top winner in 1953.
